

MORGANFRANKLIN AT A GLANCE

Public Services

Government clients rely on MorganFranklin because we deliver on our commitments—and then some. We are reliable and for us, quite simply, just getting things done is not enough. We do a great job diagnosing and solving complex problems. And we do it fast. We value and work well with other contractors and partners, putting egos aside to do the right thing for clients and their missions. It's about Core Confidence™. We believe in it, recruit for it, and encourage it. Most of all, we enjoy helping our clients build it so that they can eliminate barriers that prevent mission success when the stakes are highest.

WE DELIVER

MorganFranklin helps government and military clients overcome hurdles to advance high-stakes financial, operational, IT, and budgetary objectives.

Financial and Operational Readiness

Maintain or increase the pace of operations with on-demand financial reporting, compliance, program management, and IT expertise to support everyday and special project needs.

Risk and Crisis Management

Deploy highly effective compliance and enterprise risk management programs that support mission objectives and deliver value beyond compliance.

Radical Growth and Change

Improve program performance in environments of radical change with process and technology expertise combined with a rigorous project management discipline.

Essential Information and Communications

Deploy and maintain bulletproof networks, information systems and decision-support capabilities to ensure secure and reliable access to essential information and intelligence — whether on-site or on the move.

PROFESSIONALS

Our professionals combine audit and financial management, operations, technology and systems expertise with track records of performance in government, military and commercial sectors. This includes extensive technical expertise demonstrated by credentials such as CPA, CIA, CISA, CFE, CISSP, RCDD, MBA, Ph.D. and PMP certifications, to name a few.

PRESENCE

We serve national and international clients from offices in Virginia, Illinois, Maryland, Arizona, and the U.K. Facilities include corporate, integration labs, engineering, and Sensitive Compartmented Information Facilities (SCIF) in the continental U.S.

Core Confidence™

You have it—you expect it from others. Demand it from your advisors. It's the persistent application of skill, focus, and determination. It's a luxury when navigating day-to-day priorities. It's an absolute must when faced with high-stakes objectives.

RELATIONSHIPS

We have relationships with contractors and partners who share our desire to do more than just get things done. But to ensure objective, creative and flexible solutions for our clients, we remain unbiased and do not enter into choice-limiting reseller agreements with third parties.

DIFFERENCE

Our Core Confidence is built upon a solid foundation of:

- **People.** Recruit for strong technical and creative problem solving skills and successful track records in high-stakes situations.
- **Communication.** Deliver clear and frank communication with a pledge to deliver unpopular messages with the same urgency used to convey good news.
- **Collaboration.** Seek the insights and opinions of colleagues, partners and clients to better anticipate and convert mission challenges into value.
- **Vigor.** Offer energy, focus and high expectations for excellence in execution.
- **Speed.** Uphold organizational and team structures that enable us to be nimble and accountable.
- **Integrity.** Maintain the highest standards and ethics with honesty, integrity and positivity.

MORGANFRANKLIN DELIVERS

“When I was asked by the White House to be in charge of the 2004 G8 Summit that was hosted by President Bush at Sea Island, Georgia, I contacted MorganFranklin. Their team moved our entire network from Washington, D.C., to Sea Island, where they connected and secured remote offices and built out our IT call center. The integration was completely successful and they were able to deliver with rapid response and timeliness without sacrificing the quality required for an event attended by the president of the United States and other world leaders.”

Bob Goodwin
United States Ambassador
Executive Director — 2004 G8 Summit
