

FINANCE TRANSFORMATION SERVICES

Enabling Positive Change
in the Face of Disruption

MORGANFRANKLIN
CONSULTING

MorganFranklin Consulting is a management advisory firm that advises organizations undergoing complex transformational challenges. We help clients drive execution to create value via people, processes, data, and technology to drive positive change in the face of disruption.

OUR DEEP EXPERIENCE

Our deep experience in consulting and industry allows us to identify, examine, and solve your biggest organizational challenges by identifying root causes and creating custom solutions.

COMPANIES HIRE US WHEN FACING

- major transactions (M&A, carve out, IPO)
- control breakdown, material weaknesses, financial restatement
- escalating costs
- new system implementation
- change in leadership

With more than 100 finance transformations under our belt, MorganFranklin brings:

PRECISION

We know what to do stabilize the current situation

SPEED

With deep experience, we provide a rapid response

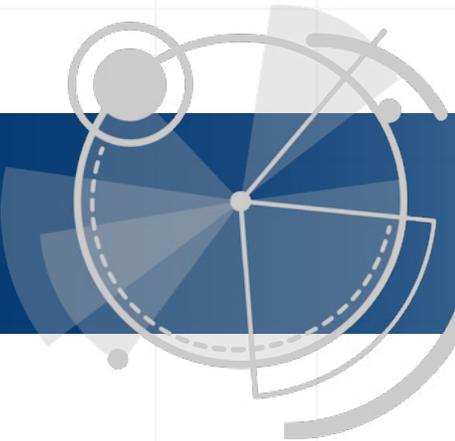

VISION

We exercise foresight to identify a road forward

SCALABILITY

Our team pulls in the right levels of people and technology to create solutions

MORGANFRANKLIN POSSESSES A UNIQUE COMBINATION OF HANDS-ON EXPERIENCE TO SUPPORT YOU THROUGH ALL ASPECTS OF A FINANCE TRANSFORMATION INITIATIVE.

Our collaborative approach drives accountability and brings real-world perspectives to support your organization's problem solving by providing you access to our team to help in any of the following:

Operational accounting: We help you rapidly meet gaps in financial reporting and financial close processes.

Financial process improvement: We'll identify rightsizing opportunities and process re-engineering to better support your business.

Financial technology enablement: We bring objectivity, structure, and creativity to design and implement technology solutions.

Event readiness: Our team supports you through transformational events, such as IPO, sale, carveout, merger, or acquisition.

Knowledge capture, stabilization, and transfer: We help you fill critical roles left open by organizational changes, key resource dependencies, and transitions.

Financial planning & analysis (FP&A): Our team can assist with all aspects of management reporting, forecasting, analysis, cost forensics, dashboards, and KPIs.
